

Shown: PSCK-8, IC-51

**Enerpac remote mounted pressure switches monitor the hydraulic system to determine any change of pressure. The signal can then be used to control the pump, or other peripheral devices.**

## IC-series

The IC-series electrical pressure switches provide pressure readings for monitoring and/or control of hydraulic system pressure in workholding systems.

## PB-4 Adaptor

The PB-4 is an adaptor for the PSCK-8 or PSCK-9 pressure switches. The G1/4" male end of the adaptor can be installed in the port of a manifold or valve body.

**Integrated in your hydraulic system, the pressure switch can be used to automate your clamping cycles.**

## Reliable electrical control of hydraulic power

- Compact design minimizes space requirements on fixture
- Switch is easily adjustable to meet system requirements.

**Pressure: 20 - 515 bar**

**Accuracy: 2%**

- E** Presostatos
- F** Pressostats
- D** Druckschalter

## Options

### Fittings

□ 194 ▶

### Gauges

□ 190 ▶

## Important

**Do not exceed the maximum pressure.**

## PSCK-8, 9

## Mounting dimensions

## PB-4

## Product selection

Adjustable pressure range	Electrical specifications	Model number	Deadband	Switch point repeatability	Oil port	kg
bar	at 50/60 Hz		bar	% of range
